

2004 Penn State Student Satisfaction Survey Overall

The purpose of the Student Satisfaction Survey is to gather feedback from undergraduate students from 20 Penn State locations about their experiences at Penn State, including their use of and satisfaction with various student services, their progress on specific learning outcomes, and their campus involvement. This survey provides the University with information regarding the effectiveness of services and programs and, through comparisons with similar surveys conducted in 1999 and 2002, provides the ability to measure change over time.

A committee of staff, faculty, and students from across the Penn State system reviewed and revised the survey conducted in 2002 for the 2004 administration. Each campus and University Park (UP) college was offered the opportunity to supply questions specific to their campus/college needs. The survey, approved by the Office for Research Protections, was administered online from March 18th to April 5th.

Random samples of 400 undergraduate students from each of the Commonwealth College locations and stand-alone colleges were invited to participate in this Web survey via e-mail. At UP, the sample was drawn as a simple random sample with additional sampling from some of the smaller colleges; in total 6,877 UP students were invited to participate. In addition to a pre-invitation e-mail from the respective chief Student Affairs officer on each campus and the initial invitation to participate, several reminders were sent. Students who completed the survey were able to participate in a drawing for a \$100 bookstore gift certificate at each location.

In total, 3,770 students completed the survey for a 26.3% overall response rate. Of those, 45.9% were UP students, 31.2% attended the Commonwealth College, and 23.0% attended one of the seven stand-alone Penn State campuses.
